

# DATA COLLECTION – CONFIGURING THE IMAGE DATA GENERATOR CLASS

|              |   |
|--------------|---|
| Date         | 12 November 2022  |
| Team ID      | PNT2022TMID29238  |
| Project Name | Project - A Gesture-based Tool for Sterile Browsing of Radiology Images |

The screenshot shows a Jupyter Notebook interface with a dark theme. The title bar indicates the file is 'Untitled8.ipynb'. The menu bar includes 'File', 'Edit', 'View', 'Insert', 'Runtime', 'Tools', and 'Help'. The left sidebar contains icons for a file explorer, search, and a code editor. The main area displays a code cell with the following Python code:

```
train_datagen = ImageDataGenerator(rescale=1./255,
                                   shear_range=0.2,
                                   zoom_range=0.2,
                                   horizontal_flip=True)
test_datagen = ImageDataGenerator(rescale=1./255)
```

The code cell is titled 'Configuring image data generator class'. The status bar at the bottom shows a green checkmark, '0s', and 'completed at 9:37 PM'.
